

INTERNATIONAL SEARCH REPORT

International application No.

PCT/SE 03/01211

A. CLASSIFICATION OF SUBJECT MATTER

IPC7: C12Q 1/37, G01N 33/564, G01N 33/68

According to International Patent Classification (IPC) or to both national classification and IPC

B. FIELDS SEARCHED

Minimum documentation searched (classification system followed by classification symbols)

IPC7: C12Q, G01N, C12N

Documentation searched other than minimum documentation to the extent that such documents are included in the fields searched

SE, DK, FI, NO classes as above

Electronic data base consulted during the international search (name of data base and, where practicable, search terms used)

EPI-INTERNAL, WPI-DATA, PAJ, BIOSIS

C. DOCUMENTS CONSIDERED TO BE RELEVANT

Category*	Citation of document, with indication, where appropriate, of the relevant passages	Relevant to claim No.
X	Scand. J. Immunol., Volume 55, 2002, E. Zimmermann-Nielsen et al: "Complement Activation Mediated by Mannan-Binding Lectin in Plasma from Healthy Individuals and from Patients with SLE, Crohn's Disease and Colorectal Cancer. Suppressed Activation by SLE Plasma", page 105 - page 110 --	1-37
A	Journal of Immunological Methods, Volume 166, 1993, Gunilla Nordin Fredrikson et al: "New procedure for the detection of complement deficiency by ELISA Analysis of activation pathways and circumvention of rheumatoid factor influence", page 263 - page 270, see specially anti-(C5b-C4) antibody --	1-37

 Further documents are listed in the continuation of Box C. See patent family annex.

* Special categories of cited documents	"T"	later document published after the international filing date or priority date and not in conflict with the application but cited to understand the principle or theory underlying the invention
"A" document defining the general state of the art which is not considered to be of particular relevance	"X"	document of particular relevance: the claimed invention cannot be considered "novel" or "cannot be considered to involve an inventive step" when the document is taken alone
"E" earlier application or patent but published on or after the international filing date	"Y"	document of particular relevance: the claimed invention cannot be considered to involve an inventive step when the document is combined with one or more other such documents, such combination being obvious to a person skilled in the art
"L" document which may throw doubts on priority claim(s) or which is cited to establish the publication date of another citation or other special reason (as specified)	"&"	document member of the same patent family
"O" document referring to an oral disclosure, use, exhibition or other means		
"P" document published prior to the international filing date but later than the priority date claimed		

Date of the actual completion of the international search

Date of mailing of the international search report

29 October 2003

31-10-2003

Name and mailing address of the ISA/

C (Continuation). DOCUMENTS CONSIDERED TO BE RELEVANT

Category*	Citation of document, with indication, where appropriate, of the relevant passages	Relevant to claim No.
A	J Immunol., Volume 167, no. 12, December 2001, Roos A et al: "Specific inhibition of the classical complement pathway by C1 binding peptides", page 7052 - page 7059, abstract from PubMed --	1-37
A	Mol Immunol., Volume 37, no. 5, April 2000, Gupta-Bansal R et al: "Inhibition of complement alternative pathway function with anti-properdin monoclonal antibodies", page 191 - page 201, abstract from PubMed --	1-37
A	J Immunol Methods, Volume 257, no. 1-2, November 2001, Petersen SV et al: "An assay for the mannan-binding lectin pathway of complement activation", page 107 - page 116, abstract from PubMed --	1-37
A	J Immunol Methods., Volume 268, no. 2, October 2002, Kuipers S et al: "A hemolytic assay for the estimation of functional mannosebinding lectin levels in human serum", page 149 - page 157, abstract from PubMed --	1-37
A	J Immunol., Volume 160, no. 6, March 1998, Suankratay C et al: "Requirement for the alternative pathway as well as C4 and C complement-dependent hemolysis via the lectin pathway", page 3006 - page 3013, abstract from PubMed --	1-37
A	US 6297024 B1 (TONY E. HUGLI ET AL), 2 October 2001 (02.10.01) --	1-37
A	WO 0206460 A2 (JENSENIUS, JENS, CHRISTIAN ET AL), 24 January 2002 (24.01.02) -----	1-37
